**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I use a local ISP and am thrilled with both the service and price. It would be absolutely miserable to have to go back to one of the "major" players like Comcast and AT&T. Their services were over-priced and underwhelming. Their practices are monopolistic. I ask that you please protect competition in this space, so that people like me can get quality service from a company we trust.

I work as an online community manager, so quality interest is absolutely essential for my profession and the community I serve. At the moment, our house uses DSL, but I can't wait for the day when fiber will be available. And it will come to my rural community soon, thanks to my local ISP. They've been the best and I want to continue using their services.

Please, I urge to support broadband competition.
